From Eliyahu

“Whoever has ears to hear let him hear.” The book of Mark in the 4th chapter repeats this saying a number of times. There Messiah brings forth a number of parables about the Kingdom. He told His disciples that the parables conceal hidden truths that are only for those who have ears to hear. Truths He called "secrets of the Kingdom." The parables of Y'shua draw from everyday occurrences that people are familiar with to reveal these hidden truths. I think that parables exist around us all the time in our lives if we have eyes to see and ears to hear, that cause us to experience the secrets of the Kingdom.

Here's an example of a living parable for you...

"The Kingdom of heaven is like the flu."

The Kingdom of Heaven is like..
..the flu?

mean.

This particular flu bug can really get your attention. My first night was in truth pretty miserable, but the next morning I got up and thought that I would just power through. No way. It wasn't long and that flu bug grabbed me by the throat and slammed me to the mat. I will spare you the sorted details, but let me just say it wasn't pretty. In fact besides feeling really sick manifested in a number of highly uncomfortable and unattractive ways I also found myself too dizzy to stand up on my own, and as weak as a kitten. I've needed to depend on other people to help me do nearly everything that I normally do on my own. That's really humiliating, and besides, I don't like bothering people all the time. But while I've got the flu I just can't get by without help.

Isn't that just like a little child? Everything seems off limits or out of reach, forcing one to constantly be calling out for help. As you may discern here, the flu has gotten me in touch with my "inner child." It's heightened my awareness that we are all His children, and as much as we may like to prove that we are big boys and girls and don't need anything from God or anybody else, the truth is we depend on Him and others every day in so many ways. As we acknowledge our dependency we find our true position in the Kingdom, that we are indeed needy and dependent. Therefore the Kingdom child must humble himself before the mighty hand of God to receive. As he does so, he soon finds more than what he expected. Not only does he get his needs met, but he also finds that, as a child of God he has acceptance, security, and help at the right time. A child of the Father is loved because that child is His child, not because of what he can or cannot do. Look at this beautiful little girl in the picture. When you look at her you do not think of the many hours of feedings, changings, doctors visits, expenses and life changes she represents. You, and especially her parents, think how beautiful she is, how precious she is, and how much she is loved. Even if you are a handful sometimes, that is how your Father sees you.

Probably after my head stops buzzing and throbbing, my body stops shivering, and I return to stasis, or a reasonable facsimile, I will read this newsletter and wonder what the dickens I was trying to say. When you have the flu does your mind take strange detours all over the place? Do you wax philosophical in you thinking? Well I do, and I'm just hoping that something has emerged here from the bubbling mass of thoughts and musings that will be of some value to you. I guess the thing I most want to leave you with is that even when you have the flu, or have other unpleasant experiences, if you have put your trust in Him He is there. Right now my body feels terrible, but my spirit feels like the mirror-smooth surface of the Sea of Galilee, because I can sense His unbroken love and presence in my spirit. His presence always with me is the greatest

Kingdom secret that I know.

More Kingdom secrets at our Tsiyon meeting at Tsiyon.Net at 8 PM CST. Please come with your ears on.

Shalom,

PS - A lot has been going on in the mid-east lately, and much of it is not reported in the US press, where the constant and only story is so-called "Russian collusion" of the Trump administration. I suppose we shouldn't be surprised the NWO media would be reluctant to tell us that 200 Russians were recently killed by US forces in Syria. A war is imminent. I'll have more on that a little later.

Up to 200 Russian advisers killed in last week’s clash with US forces in Syria

Reprint: debkafile, Feb 13, 2018 @ 17:42 east Syria, Euphrates bridge, US-Russian clash in Syria

In the first military clash between US and Russian forces in Syria, more than 200 Russian “mercenaries” are reported killed, scores more injured. US military sources first reported that 100 Russian “advisers” were killed and dozens injured in a US attack on Syrian and allied pro-Iranian forces on Feb. 8. By Tuesday, Feb. 13, those figures had doubled. Moscow has not confirmed the incident or the casualties, which would be five times more than Russian official losses since it entered the war in 2015. President Vladimir Putin’s spokesman, Dmitry Peskov, declined to comment, saying the Kremlin only tracks data on the country’s armed forces. According to one Russian officer, the death toll continues to rise after scores of Russian wounded were

flown to hospitals in Moscow and St. Petersburg.

DEBKAFfile’s military sources reported exclusively on Feb. 9 that US special forces had struck Russian military engineers laying a floating bridge on the Euphrates River near Deir ez-Zour for Syrian army, Hizballah and other pro-Iranian forces to cross to the east bank. That engagement unfolded when US forces posted in eastern Syria repelled a Syrian-pro-Iranian attack led by T-72 and T-55 tanks on a base held by American and US-backed Syrian Democratic Forces east of the Euphrates River near the oil town of Tabiye.

The strike force was fighting under the command of Iranian Revolutionary Guards officers. It included members of the Afghan Shiite militia imported by Tehran, pro-Assad troops of the Syrian National Defense Forces, local Arab tribesmen and Russian mercenaries. Those mercenaries were provided by Wagner, a Russian private military contractor, which supplies ground forces to fight for Assad alongside the pro-Iranian and Russian combatants.

Against that fighting strength, the Americans used F-22 Raptors, F-15 Strike Eagles, Air Force AC-130 gunships, Marine artillery and Army Apache attack helicopters, as well as Special Operations forces, which stopped the multiple assault in its tracks.

See this video! - September 23, 2017, we were told, would be the date of The Great Sign of Revelation 12. Dire end-of-the-world predictions were made. Yet, after that day of "The Great Sign" came and went, and the predictions failed to materialize, we heard little if anything explaining the failure. This was not the first time this has happened, and won't be the last. Why? Signs in the sky are foretold in Scripture for the last days. True to that prophecy, unusual heavenly signs do occur. In fact, signs in the sky often cause a clamor, with predictions of rapture and the end of the world. Yet, these signs come and go, and the predicted events fail to happen. This, of course, provides an opportunity for scoffers to gloat. Why does this keep happening? Could it be that these signs are significant, but they mean something different than YouTube preachers have guessed? There is, in fact, a unified message in these sky signs. This video, "The Heavens Speak" reveals what that message is.
