From Eliyahu:

Shalom friends,

Mammon is a monster that is consuming the whole world. Mammon is a Bible word used for wealth, and for the false god who personifies wealth and the greed that often goes with it. This false god is a hoarder of wealth above all else. He can never get enough, and those who are infected with his disease behave just like him. Mammon knows how to control people by appealing to their greed, and often does. Make no mistake, it is greed, not love, that makes this world what it is.

Why? Because the super-greedy use their hoard of wealth to tweak and mold the system to funnel the lion's share of the world's wealth directly into their own pockets. By this time they have the world economic system, aided by technology and corrupt politicians every where, working like a well-oiled machine to suck the pennies out of the pockets of the multitudes of hard-working ordinary people, and even the desperately poor, directly into their massive coffers. The wealthy elite we are talking about publish the idea that it is over-population, too many people, that is the main factor for poverty and every other ill of mankind. That is a blatant lie. There is more than enough wealth on earth for every person to have everything they need. The problem isn't over-population. The problem is the greedy few who are sucking up all the wealth. Does this sound like a dramatic overstatement? It's not. Just take a look at the graphic to the right.

The statistics on this graphic are from Oxfam, the non-profit organization that tracks the world's wealth and publishes its statistics each year, in concert with the Davos World Economic Forum. These are the latest statistics, published in January of 2019. These statistics reveal that global economic inequality is greater now than at any time in human history. Right now, in 2019, the 26 richest people [TWENTY-SIX INDIVIDUALS] own as much wealth as the poorest half of mankind! That's 3.5 BILLION people! Not only that, but the bottom half's wealth is dropping by 11% per year, while the wealthiest are gaining by 12% a year! In other words, the loss of the poorest is the gain of the richest! At this point this looting of the poor is systematized. The wealthy have this gain built like clock-work, right into the economic system that they have engineered to feed their greed. This greed is at a crisis level, eating the world alive. As the Scripture says:

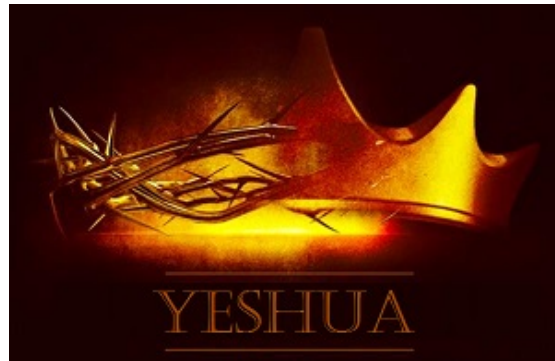

"For the love of money is a root of all kinds of evil." 1 Timothy 6:10

Merely acknowledging this enormous economic inequality is enough, in the minds of many, to label a person stating these facts as a socialist. For the record, I'm no socialist. Socialism has failed everywhere it has been tried, as it is failing right now in Venezuela. Why doesn't socialism solve the problem? For the same reason corporatism has failed - human greed. If you establish a socialist government then the politicians at the helm take the money from the rich, use it to hand out token crumbs to the population, and then hoard the rest for themselves. This is even worse than the troubled system we have already because the socialist government does not produce anything of value with all that money. When the system inevitably fails the politicians must then find a scapegoat, such as the Jews, the Christians, the immigrants, whomever, and then social unrest ensues. While the people are left fighting each other, the truly guilty get away scot free, with their millions safely tucked away in foreign banks, leaving the country in flames. No, socialism is a rabbit hole that may look good to some who desire justice, but socialism never fulfills that promise of justice. It is not the solution, it is just another scam to fleece the gullible public.

Meanwhile, Mammon is killing us. It is, in fact, the main force behind the drive toward a one-world government. It is Mammon that will put the antichrist on the throne. Flawed humanity can't stop it, because it is humanity who are empowering this evil to satisfy the fallen nature. That's why no ..ism can solve this. Mankind is too sinful to create a righteous government, beyond corruption, to solve the economic inequality that is devastating the world.

That's why I'm all in with Yeshua the King! He is returning soon to destroy those who are destroying the world, and to set everything right. Here is what the prophet has written about Him:

The Spirit of YHWH will rest on him: the spirit of wisdom and understanding, the spirit of counsel and might, the spirit of knowledge and of the fear of YHWH! His delight will be in the fear of YHWH! He will not judge by the sight of his eyes, neither decide by the hearing of his ears; but with righteousness he will judge the poor, and decide with equity for the humble of the earth. He will strike the earth with the rod of his mouth; and with the breath of his lips he will kill the wicked. Righteousness will be the belt of his waist, and faithfulness the belt of his waist. Isaiah 11:2-5

Yeshua has the proven character, the right, and the power, to remove the present corrupt system - to replace it with His Kingdom. His Kingdom is eternal. The smart money is on advancing His Kingdom, even in the midst of this world. Luke 16 explains this opportunity in detail. Join us tonight for our live Tsiyon meeting as we take a closer look at Luke 16, at 8 PM CST at Tsiyon.Net. It is foolish to make our main focus amassing wealth in this world - when we can store up eternal riches for the world to come.

Shalom,

Eliyahu

Study Shows Richest 0.00025% Owns More Wealth Than Bottom 150 Million Americans

Reprint: Common Dreams, February 10, 2019

As survey data continues to show that raising taxes on the wealthy is extremely popular among the U.S. public, new research by inequality expert and University of California, Berkeley economist Gabriel Zucman found that the richest 0.00025 percent of the American population now owns more wealth than the 150 million adults in the bottom 60 percent.

The top 0.1% now own more than the bottom 80%

Share of American wealth owned by the top 1%, the top 0.1%, and the bottom 80% of American adults

Sources: Gabriel Zucman, World Inequality Database

THE WASHINGTON POST

According to Zucman's research, the richest 0.00025 percent—just 400 Americans—have seen their share of America's national wealth triple since the 1980s, while the wealth of much of the U.S. population has stagnated or declined.

The 400 richest Americans have tripled their share of the nation's wealth since the early 1980s and now own more of the country's riches than the 150 million adults in the bottom 60% of the wealth distribution.

— Steven Greenhouse (@greenhousenyt) February 9, 2019

"The 400 richest Americans — the top 0.00025 percent of the population — have tripled their share of the nation's wealth since the early 1980s, according to a new working paper on wealth inequality by Berkeley economist Gabriel Zucman."

— Alec MacGillis (@AlecMacGillis) February 9, 2019

As the *Washington Post's* Christopher Ingraham noted in a breakdown of Zucman's research, adults in the bottom 60 percent of the wealth distribution "saw their share of the nation's wealth fall from 5.7 percent in 1987 to 2.1 percent in 2014."

Consolidation of wealth at the very top, Ingraham observes, "is eroding security from families in the lower and middle classes, who rely on their small stores of wealth to finance their retirement and to

smooth over economic shocks like the loss of a job. And it's consolidating power in the hands of the nation's billionaires, who are increasingly using their riches to purchase political influence."

Zucman's research comes as members of Congress and 2020 presidential candidates are pushing a variety of plans to begin reducing America's staggering wealth and income inequality by raising taxes on those at the very top.

Sen. Elizabeth Warren (D-Mass.), who officially launched her 2020 presidential campaign on Saturday, has proposed an annual tax of two percent on assets over \$50 million.

Last month, Sen. Bernie Sanders (I-Vt.)—who is reportedly close to announcing his 2020 candidacy—introduced the For the 99.8% Act, which would establish a 77 percent tax on all estates over \$1 billion.

And Rep. Alexandria Ocasio-Cortez (D-N.Y.) has suggested imposing a top marginal tax rate of 70 percent on those who make over \$10 million.

Polling data show[s] that 76 percent of Americans believe the rich should pay more in taxes.
