New: The Black Horse Rider Unsealed 3

When he opened the **third seal**, I heard the third living creature say, "Come!" And behold, a **black horse**, and he who sat on it had a balance in his hand. I heard a voice in the midst of the four living creatures saying, "A choenix of wheat for a denarius, and three choenix of barley for a denarius! Don't damage the oil and the wine!" Revelation 6:5-6

What would you do if a loaf of bread cost a million dollars? How would you feed your children?

Impossible you say? Actually, hundreds of millions of people literally cannot afford to eat right now!

All signs indicate that Black Horse of economic crisis will be riding through your neighborhood shortly - even if you live in one of the "developed" countries.

"We've had economic troubles before and got through OK" you say? Maybe not this time.

This crisis is different and potentially far more deadly than anything we've seen before. This program will explain why the difference and offers a global 6 month economic forecast that you need to hear right now.

Tsiyon Radio Web Site is Back!

I'm sure you've had your moments when life threw you an unexpected curveball that was harder to recover from than you would have thought. That's what happened to us a couple weeks ago when our web site was shut down without warning or explanation. That sent us scrambling to get our site set up at a new web host. Well, last weekend we found out why that sort of move requires more planning than had been allowed to us. Things just don't work the same when you move from one host to another, not without a lot of work. There are incompatibilities that must be adjust for - incompatibilities that led to the crash of our site last weekend. We're sorry if you were affected by that. The good news is we worked hard to get our site back up - and we've even made some improvements. As you can see, we have our list mail working again too. Next we hope to get our Tsiyon Community site humming again, so please be praying for that.

Despite the tech problems our program content was not effected at all. In advance of these web troubles Yah had already given us several messages which we already had recorded in advance. Sometimes we get thrown a curveball we don't expect - but He NEVER does! Nothing catches Him by surprise. Because of His foresight the quality of our programming was in no way hindered by the hours we have since had to devote to the web site tech problems. In fact, we think that these three programs on the Black Horse Rider which have been aired during the time of these web troubles are, in some ways, among our best ever. They are in-depth and bring you an understanding that is the hard truth - so rare to find these days.

Consider this week's program for example; our third and last program on the Black Horse Rider. It lays out the whole economic crisis step by step so you can easily see why the black horse rider is on his way. Not only that, it offers a 6 month economic forecast so that you will have a very solid idea of exactly what may be happening over the next few critical months and beyond. We have also included a supplement for our Tsiyon Ministry Partners of over 40 pages of articles and information documenting the points made in the program. This is not just hype or "doom and gloom" - the very conditions the Scriptures foretold are lining up like ducks in a row. We need to see the signs of the times and be ready.

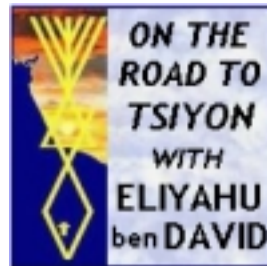

What we don't need is to be fearful of the future. Our Father loves us and, if only we turn to Him, He will see us through these momentous days. Messiah spoke of just the events we now are seeing coming upon the world. Be encouraged by His words; "When these things begin to happen, look up, and lift up your heads, because your redemption is near." (Luke 21:28)

Shabbat Shalom in Messiah,
