Tsiyon Paradigm Shift

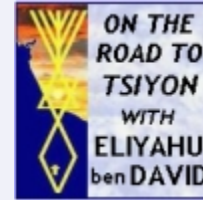

On the Road to Tsiyon is 5 years old!

To celebrate let's go back to the beginning
to hear what we were saying THEN.

...Oh, guess what?

It's the SAME THING we are saying NOW!

TSIYON on the air 5 years! As the calendar turns over to 2011, *On the Road to Tsiyon* celebrates its 5th birthday. We want to thank all of you for being part of the Tsiyon Radio family and being a vital part of that! Thank you for your prayers and support that have helped keep Tsiyon on the air these 5 years!

Hear Tsiyon Radio most anyplace in North & South America!

Our International broadcast can be heard on WWCR International Shortwave each Saturday night at 5:00pm Central Time, 2300 UTC on 5.070 MHz.

Silver Kingdom Shekels - Silver nearly doubled in value in 2010. If you ordered guaranteed 99.999% fine silver Kingdom Shekels about a year ago, when we introduced them, you are likely very glad you did. In that **one year** the value of **silver** relative to the US Dollar has **nearly doubled** in value. By contrast, dollars held in any bank account have lost value! The way to guard your savings, and be prepared for the future, is to hold silver. It's still not too late to act. As the value of your paper dollars decline, silver keeps going up, and is expected to rise as much as ten fold or more from present levels. Exchanging paper

for silver is one of the best things you can do right now, leading up to the collapse of the dollar. We think Kingdom Shekels are the best way to obtain silver. As one person who ordered them said: "I wanted to write and let you all know that the shekels are beautiful. We are very much impressed with the design and quality..." Find out more [here](#).

Listener Q + A

Listener Comment - What Bible?

What Bible do you say is translated most accurately? I am so confused on them. I feel like I can't trust what they say anymore because of all this watered down and even New Age

teachings. I have no training whether by good pastors, mentors, or schools. I don't know Greek or Hebrew. I am so leery of Bibles and concordances now. Can you please explain differences, what and why you think one is more accurate than another. Is Strong's accurate, is the New Strong's not? .. I feel like so much stuff in there is hidden from us - believers because we don't know where to go for truth or how to find the truth because the modern church is but yet are seeking it, thirsty for it. Where do we go to find it, what resources can we use in our own study to show us the truth, to bring understanding of what it really says and means?

Tsiyon Answer - What Bible

I have not found a translation that always gets it right. Comparing different translations is helpful. Also, I find Strong's Concordance to be quite reliable. In my study I use the e-sword computer program which brings an amazing number of Bibles and resources together in one user-friendly framework. With this I can easily check Strong's on any word. From there I can look into the many other resources and commentaries that are available for e-sword. I really can do most of my Bible study in e-sword before turning to other more specialized resources in my library. You can download e-sword for free [here](#).

You may also consider becoming a Tsiyon Partner and joining our Talmidim program. We offer a systematic study by simply listening to each of our programs from the start. Many people say they are getting a lot out of using this approach.

Finally, the most important thing is to keep asking your Father in Heaven for understanding of His Word. As Messiah has said; "Everyone seeking finds."

Listener Comment - Did Ron Wyatt find Noah's Ark?

I continue to enjoy your weekly programs, I'm glad that you are covering these topics. Your program on Atlantis and geological proof in the earth of a worldwide flood was informative. I kept waiting for you to talk about the American Biblical archaeologist, Ron Wyatt, who [allegedly] located and thoroughly investigated the actual Noah's ark. ..Perhaps you have not seen his work, so that is why I am sending this email to you. ..Ron Wyatt did more investigation and he determined that it was, in fact, Noah's ark. There are detailed videos of this and other amazing discoveries at his website.

Tsiyon Answer - Did Ron Wyatt find Noah's Ark?

Thank you for your feedback. Presently there are a number of competing claims regarding Noah's Ark, so we will have to see which of these claims, if any, will produce irrefutable evidence of authenticity. If the Ark is found, great. However, those who trust in YHWH and his Word do not need that to believe the Ark was/is real. In any case, it is unlikely that Wyatt's site will prove out.

In fact, a number of Bible-believing scientists have examined Wyatt's claims and debunked them on good scientific grounds. The following are excerpts summarizing research regarding Ron Wyatt's proposed Noah's Ark site and can be found at this [link](#).

Has Noah's Ark Been Found?

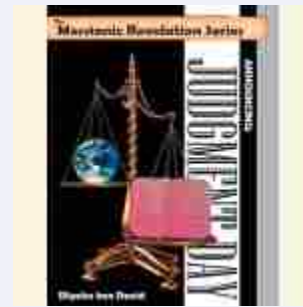

For the past several years it has been claimed by Ron Wyatt that he has discovered Noah's ark. The site he claims to have "discovered," however, was originally discovered in 1959 by a Turkish captain. While the Durupinar site is about the right length for Noah's ark, it is, in addition, too wide to be Noah's ark. Wyatt has claimed that the "boat-shapedness" of this formation can only be explained by its being Noah's ark, but both Shea and Morris have offered other plausible explanations. Likewise, Wyatt has argued that the standing stones he has found are anchors, while Terian is aware of similar stones outside the Durupinar site area that were pagan cultic stones later converted by Christians for Christian purposes...

...The Durupinar site is an intriguing phenomenon that was discovered in 1959 by a Turkish army captain. It lies within the ancient Urartu territory, as one would expect of Noah's ark, and it is even roughly the same length as one would expect the ark to be.

On the other hand, the Durupinar site is not the width of the ark as specified by the biblical account, nor does it fit the

Bible's description of the ark's resting place--as one of the higher elevations in its region. In addition, Wyatt's characterization of the small difference of the carbon content within and without the formation is proof only of his lack of geological training, as is his attempt to rewrite all geological understanding to explain why his "pre-flood" wood has no growth rings. His reports of the results of his subsurface radar have been disputed, even by sympathetic scientists who have attempted them.

In short, Wyatt's "train-load" of evidence is in reality speculation based on imagination not evidence. The Durupinar site is undoubtedly a natural formation. Noah's ark has yet to be found.

While I am aware that Ron Wyatt has many avid supporters I am also aware that many who have dug deeper say his claims are not "as advertised." I have included a few links below as a jumping off point, should you wish to look into this further.

Listener Comments Again - Did Ron Wyatt find Noah's Ark?

I just wanted to thank you for responding to my last email regarding Ron Wyatt and Noah's Ark. I know that you are very busy with all that you have to do, and I know that it must have taken you quite a bit of time to return such a thorough response. Just to let you know, I did go to the websites that you recommended, and even though I wanted to believe Ron Wyatt, I am now convinced that he is not credible. What concerns me now is how incredibly deceptive he was! Most everyone has believed him, including those who ended up disproving him! I can only think that it is another sign of the end times: "Take heed that no man deceive you, for many will come in my name, saying that I (Jeshua) am the Christ, and shall deceive many"

From Eliyahu

Please forgive us this short break from our present series on *The Mystery of Rebellion*, to celebrate the 5 year anniversary of *On the Road to Tsiyon*. I think you will enjoy this look at what our mission has been from the start - and what it still is. One more thing: Many blessings to you and yours during our 6th year of broadcasting!

Blessings and Shalom,

Eliyahu ben David
