Who or What is Azazel?

*"Aaron .. shall take the **two goats**, and set them before YHWH at the door of the Tent of Meeting. 8 Aaron shall cast lots for the two goats; one lot for YHWH, and the other lot for Azazel. 9 Aaron shall present **the goat on which the lot fell for YHWH**, and offer him for a sin offering. 10 But **the goat, on which the lot fell for Azazel**, shall be presented alive before YHWH, to make atonement by him, to send him away for Azazel into the wilderness."*
Vayikra/Leviticus 16:7-10

Listen FREE this Sabbath - Tsiyon Road Sabbath broadcasting begins July 19, 6 PM, Jerusalem time, and continues for 48 hours. The Midrash is broadcast 8 times over that period.

From Eliyahu

Our greatest need ...what is it? More money? Better health? More friends? While all of those things may be desirable, none of them are key. With certain death just a matter of time for every person our greatest need must be reconciliation with our Creator! He is anxious to save us from ourselves and even to grant us eternal life. He is the answer to all of our problems. Yet, there is a barrier to reconciliation with Him. That barrier is SIN. He is perfect and we ..well, we are far from perfect. In fact, by comparison with His sterling righteousness, we are wicked. How do we bridge that gap? There is only one way, the way He made for us. That way is called ATONEMENT. Join me today on *Tsiyon Road*, as I consider the mysteries of atonement found in Leviticus 16.

Blessings and Shalom!

Eliyahu ben David

On The Road To Tsiyon: What's Happening Now?

With this *Tsiyon News* we introduce a new feature, which we will include here from time to time, called: "On The Road To Tsiyon: What's Happening Now?" The purpose of this feature is to highlight one of our past programs, bringing you up to date with some of the latest news on the same topic.

I Will Bring Them Down #236 - 2010/07/09

Though they ascend to heaven...
... From there I will bring them
down.

Amos 9:2

The geo-political landscape is rapidly changing in the world - and even in space. *I Will Bring Them Down #236* reported on that trend in which NASA is declining from past dominance in space, while other countries, notably China, are advancing rapidly. Today, on every front, China is aggressively countering the global dominance of the world by Western powers. As I write, HAMAS continues to hammer Israel with sophisticated missiles of Chinese design, typical of Chinese support of anti-western forces in the Middle East. China has been building up its military for years and recently announced they believe they can now defeat the USA in a hot war. On the economic front, just this week the new BRICS Bank was announced in Brazil, with China putting up the lion's share of the billions needed to fund the bank. If the IMF and World Bank are the McDonalds of global banking, the BRICS Bank plans to be the new Burger King of world banking. This is a major challenge to the Western banker elite and US Dollar dominance in the world, and make no mistake, is seen by the New World Order as an economic act of war. All of this is indicative of a block of nations, including the BRICS, the Iranian block, and others, rising up as never before to oppose the New World Order plan for "global governance." Covert world war is under way, with overt global war fast becoming a real possibility. In this climate space becomes a strategic battle platform. China has become a strong challenger on the battlefield of space, and still wants to do more, as shown in the following article.

China's President Xi Wants More Military Use of Space

Reprint from Space.Com, By Megan Gannon, News Editor - Spring, 2014

The Long March 2C rocket launched with the Shijian 11-06 satellite at 10:46 a.m. Beijing [time](#) on March 31, 2014.

Credit: Xinhua/Zhu Xiang

Chinese President Xi Jinping reportedly asked his nation's air force to hasten its integration of air and space [capabilities](#).

During a visit to the air force headquarters of the People's Liberation Army in Beijing, Xi urged the development of a "new-type combat force" and told military leaders they need to be able to deal with air and space emergencies "swiftly and effectively," the English-language newspaper China Daily reported.

The news report gave few details on how Xi wanted to strengthen the military use of space. Some of the Chinese media framed Xi's request as a response to actions by the United States and other world powers.

China Daily quoted Wang Ya'nian, deputy editor-in-chief of Beijing's Aerospace Knowledge Magazine, as saying: "The United States has paid considerable attention and [resources](#) to the integration of capabilities in both air and space, and other powers have also moved progressively toward space militarization. Though China has stated that it sticks to the peaceful use of space, we must make sure that we have the ability to cope with others' operations in space."

China became the third country — following the former Soviet Union and the United States — to independently send humans into space and put a spacecraft on the moon. But China's space program has raised some concerns among U.S. observers.

The Chinese [government](#) received widespread condemnation after conducting an anti-satellite (ASAT) test in 2007 without advance warning to foreign powers. During that test, China blew up one of its own satellites, creating about 3,000 new pieces of space junk in a heavily used part of Earth's orbit.

In a report to Congress last year, the Pentagon noted that China was continuing to ramp up its military capabilities in space, with 18 space launches in 2012 and an expansion of its space-based intelligence, surveillance, navigation, meteorological and communications satellite [networks](#). That report from the U.S. Department of Defense also claimed that China had improved capabilities "to limit or prevent the use of space-based assets by adversaries during times of crisis or conflict."

China may even have its own equivalent of the U.S. Air Force's mysterious X-37B space plane: the secretive spacecraft known as Shenlong (Mandarin for "Divine Dragon), which reportedly embarked on its first test flight in 2011.

- "In that day ...", is coming fast!
Prophecy is alive, from times long past!
Nowhere to run, nowhere to hide,
Amos had it right, we are on the slide!
The downward spiral, is very real,
court is in session, no appeal!
We have fallen, to an observing state,
protecting our interests, at an alarming rate!

The US can no longer, afford space travel,
yet our military needs, will not unravel!
Weapons we have, and in abundance,
but our world power, is much less affluent!
The US government, supports space peace plans,
agrees to them all, but on the other hand,
progresses along, with weapons development,
so heinous, it should require our abandonment!
Asia is to continue, with the space race,
we need to establish, just what is our faith!
To believe and to obey, what Yahweh commanded,
may we all just begin, to just understand this!

- My goodness! Where is the U.S. media coverage on this space race??? Japan had gone and had done it successfully on a meteor? I mean, we Americans are trillions in debt due to the central bank and failed U.S. policies/tied to lobbyist of the global elites and “used to be secret” societies,,, we might want to start riding bikes like it was in China and save to catch up. Our U.S. media had been feeding Americans idiotic coverages on really dumb reality shows, or the dumbing and numbing breaking news on immoral ungod like celebrities such as Paris Hilton or Britney Spears or the who’s the next Hollywood couple to marry or split up....It’s irritating!
- Being of an Asian decent, instead of being proud, I am feeling sad that the lust of pride due to their economic successes...they are turning against Yahweh’s will. Not understanding, “For they know not what they are doing”, A VERY STRONG VALID REASON TO SUPPORT TSIYON RADIO TO SPREAD IN ASIA TO SAVE SOULS! Thanks to Eliyahu and Dawn to make us aware about these space race events.

It is interesting to me that Asia is advancing in the space age race. You have mentioned parts of Asia are experiencing alot of these meteors and other things like, blood rain, fish, ice and fire falling thereabouts.

Getting the message into all the world!!!

Greetings Tribesmen!!!! Here’s an idea. Build a huge sling shot and shoot all these space cadets into orbit. We’ve screwed up the earth, so hey, lets go mess up outer space. Such nonsense and silliness!!! How long o Yahweh, before you crush the enemy? Come quickly sweet Yahshua!!

It does not matter. The Book of Amos is clear, Yahweh will strike them down. It may appear as if China has advanced, but it is according to Divine purpose. They will think and believe that they are gods and they’ll be exempt from Armageddon. They are also the very ones who will try to fight YESHUA. Their awakening will be an eternal death blow. America has been stopped for the idolization of false gods and so will China, it is only a matter of time.
