Don't miss our next live online Tsiyon Meeting at Tsiyon.Net

From Elijahu

Consider this:

According to the Holy Time of YHWH, He determines the years, months, and days, on which He sets His appointments to meet with His people. A crucial time for that is at the end of the twelfth month of each Hebrew Year. At this time we look for the sign that Yah gives for the start of a new year. That sign is new aviv barley present in the Land of Israel. Multiple witnesses searched the Land today and earlier, and found no aviv barley. This means the coming month cannot be the month of Aviv, the first month of the year. Thus, we will have a thirteenth month when we enter into the new month tomorrow, April 4th, at sunset. I say tomorrow and not today, because multiple witnesses observed and saw no new moon sliver in the skies above the Land of Israel today. From observation looking for these signs as set out by YHWH, and finding them not present today, we now know the new month begins tomorrow evening of April 4th, and the new month will be the 13th month this year, with the new year starting one month later.

We urge all of His people to use this "extra" month to conclude your most important works of faith for this 6th year, before the 7th year, the Shmita year of

this Shmita cycle begins.

Blessings and Shalom,

Eliyahu
