STARTING DEUTERONOMY!

From Elijahu

Consider this:

For this newsletter I had hoped to feature our new series of teachings on Deuteronomy that starts tonight, but was forced instead to write about a current event of universal concern. To get into that, please consider the graphic at the top of this page. The picture shown there is from the *US Holocaust Memorial Museum* website, and is the header for an article there that starts with this:

"Propaganda is the dissemination of information to influence or control large groups of people. *In totalitarian regimes like Nazi Germany,*

propaganda plays a significant role in consolidating power in the hands of the controlling party."

Most everyone knows what propaganda is, but these explanations from Britannica.com add some insight:

"propaganda, dissemination of information—facts, arguments, rumours, half-truths, or lies—to influence public opinion ... ***Deliberateness and a relatively heavy emphasis on manipulation distinguish propaganda from casual conversation or the free and easy exchange of ideas.*** Propagandists have a specified goal or set of goals. To achieve these, they deliberately select facts, arguments, and displays of symbols and present them in ways they think will have the most effect. ***To maximize effect, they may omit or distort pertinent facts or simply lie, and they may try to divert the attention of the reactors (the people they are trying to sway) from everything but their own propaganda."***

Let's compare the above description of *propaganda* with the definition of *persuasion*, also from Britannica.com:

Persuasion - "the act of causing people to do or believe something : the act or activity of persuading people"

Everyone uses persuasion, which can simply be the attempt to convince another person or persons of your position on something. Often, a good old fashioned argument or debate can help to prove out whether a given position is right or wrong. We call that use of argument and debate *freedom of speech*. Within reason, people should be able to test what they hear and can freely disagree without needing to fear repercussions from their free speech and choice to agree or not. Freedom of speech is a good thing, because it uncovers the facts and helps one to discern the truth of a given position.

The Constitution of the United States offers a guarantee of free speech. Why is this important? Because a government that responds to the real needs and desires of the people can only exist where all people are free to ask any and all questions, hear all sides of every issue, and say whatever they feel they need to say, regardless of social status. That is the American Way that American citizens have traditionally called "freedom."

In America that "freedom" is gone. Now we have propaganda instead.

If anyone cares to research the facts, it becomes very clear that the corporations largely control politicians, and the media, with mountains of cash, and have for decades. [It should be mentioned that the big corporations and those behind them are one and the same elite group pushing for a world government by 2030.] The government (deep state) and the major media, including big tech, own all the WMDs - weapons of mass deception - and use them to disseminate their propaganda while burying the so-called "misinformation" (facts they don't like). This level of propaganda already goes far beyond anything Joseph Goebbels, the Nazi head of the *Reich Ministry of Enlightenment and Propaganda*, could have ever dreamed. With this system, government persons and entities can get around the freedom of speech issue, simply leaving it to the corporations to do the censoring. While being more subtle than Goebbels, this 21st century propaganda system is far more effective, not only in the USA, but in countries around the world.

Now, though, the globalist propaganda machine has felt forced to push their game to a whole new level, that is not so subtle. Yes, Elon Musk is the man who incited their latest move. By purchasing Twitter with the intent to restore freedom of speech on that platform, Musk has created a hemorrhage of truth in the system that could severely expose the propaganda machine. To stop that hemorrhage, to save their propaganda system, they must reveal themselves as propagandists, rather than the protectors of truth they claim to be. As we learned above, "a relatively heavy emphasis on manipulation distinguishes propaganda from casual conversation or the free and easy exchange of ideas." Their rush to stop "the free and easy exchange of ideas" from happening on Twitter shows up the globalists as the propagandists they are. What, exactly have they done?

Only days after Musk bought Twitter with the intent to reform the platform to allow freedom of speech, it was announced that the Department of Homeland Security is launching a "Disinformation Governance Board" that will use the might of the government to counter free speech on social media sites - like Twitter for

example. What a coincidence that is, happening immediately after Musk bought Twitter .. and the same sort of government control has been announced in Europe as well. That the US government has now created an official government board to directly inhibit free speech is an obvious gross violation of the 1st Amendment to the Constitution, so therefore constitutes tyranny.

This step is a gross departure from the core values of America, with terrible implications for the future. Some would say, an America in which the government creates an agency that actively attacks free speech, is not America at all. When the *Reich Ministry of Enlightenment and Propaganda* was founded in 1933, it was just a few more years before the world was facing WW2, in 1939. Does the *Disinformation Governance Board* signal a similar process, this time making the way for the 2030 global government, and the end of personal freedom that will come with it? I can't help but observe we are looking at the same length of time of about 7 years in both instances.

In any event, the Gentile nations are already falling rapidly into gross darkness and evil. Push-back against tyranny in those nations is a given, with no one knowing how far that might go, or how violent and/or extreme the reaction to that push-back and clamp-down of society will become. Further and more extreme chaos is inevitable. As for the remnant; this is not our fight. Remnant Israel needs to rise up, get organized, get out, and go home to our Land - before the worst happens! There is a narrow window of opportunity and we must not miss it!

The message of Deuteronomy will help to prepare us for our prophesied return to our Land. We are starting our consideration of this vitally important book, tonight, at Tsiyon.Net at 8 PM, CST, at our live online meeting. This will include a lot that's new, so please join us!

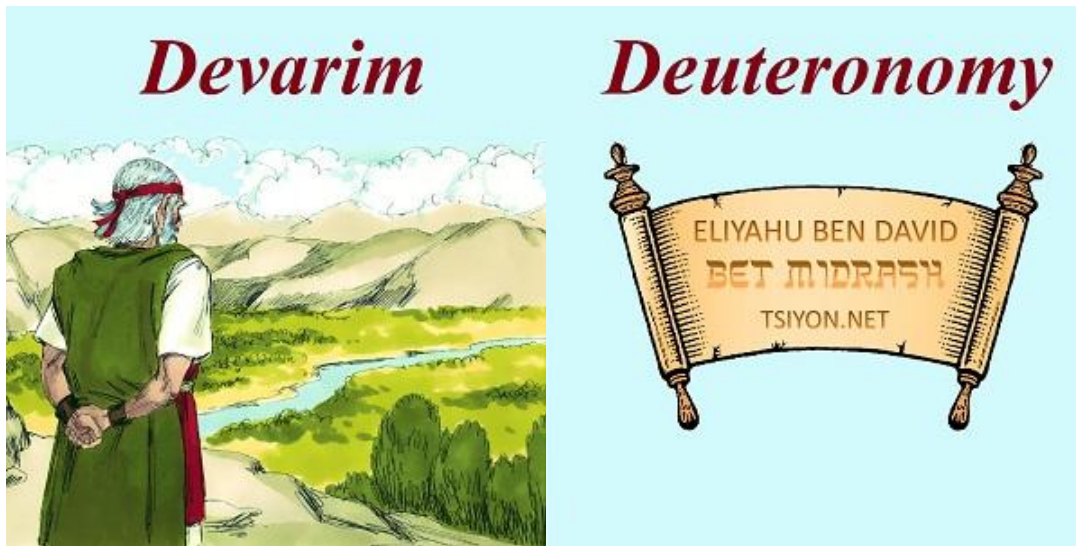

Blessings and good health to you,

Eliyahu
