From Eliyahu

Consider this:

Giants couldn't possibly be real, right?

That's problematic for some Bible readers, because giants are reported as being real in the Bible. For example, in the portion of Deuteronomy I'm addressing at our live online meeting tonight, history involving six different tribes of giants is stated, in much the same way as you might read in a newspaper. Many people assume this part of the Bible must be mythical - but it doesn't sound mythical. In fact, everything else in the account is tied to real places, real people, and real events, with the giants as part of the real story.

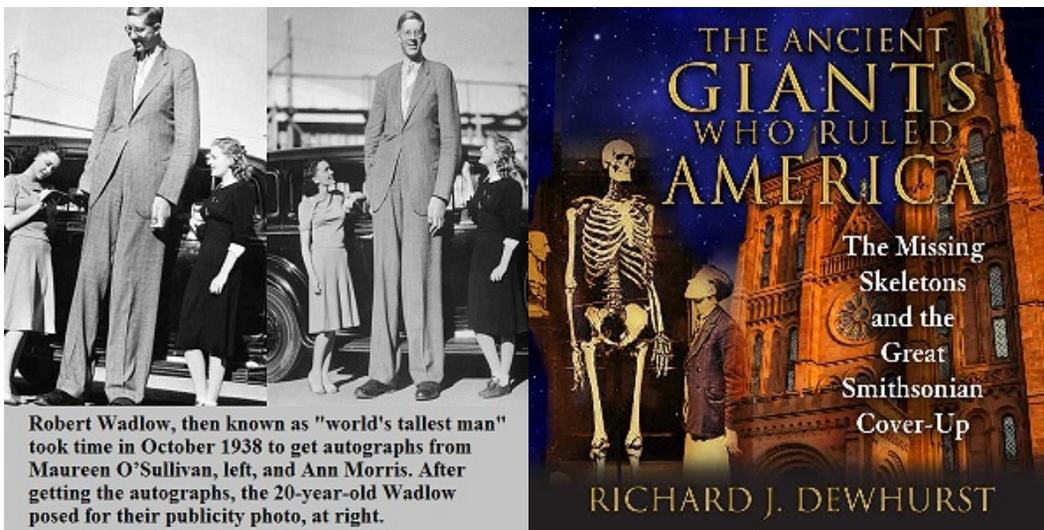

The fact is, even in modern times people of unusual height do exist. For example, the photo you see below of Robert Wadlow is an actual publicity photo from the 1930s. He is standing with two famous actresses, Maureen O'Sullivan and Ann Morris. Both can be seen in movies as normal height women. Yet, Wadlow towers over both of them like, well, a giant.

Also, below you will see the cover of a book entitled, *The Ancient Giants Who Ruled America: The Missing Skeletons and the Great Smithsonian Cover-Up*, by Richard J. Dewhurst. The startling thing about this book is how well documented it is. This is not just emotional sensationalism, but includes a lot of hard facts. One reviewer says this about the book:

I have read in diverse places about archaeological discoveries of giant human remains. This book pulls together those found in the USA from late 19th to mid 20th century. But someone could find such reports anywhere in the world, I believe. At some point in the past, 'stone age', humans of between 8 feet and 12 feet tall walked the earth. They were probably the megalith builders, but that's outside this book's scope. Dewhurst does an excellent job of pulling together his material and providing a motive for the cover-ups. It is a little repetitive, but that's because it has to enumerate similar reports.

Drawing on 400 years of newspaper articles and photos, first-person accounts, state historical records, and illustrated field reports, Richard J. Dewhurst reveals not only that North America was once ruled by an advanced race of giants, but also that the Smithsonian has been actively suppressing the physical evidence for nearly 150 years. He shows how thousands of giant skeletons have been unearthed at Mound Builder sites across the continent, only to disappear from the historical record.

There is real evidence of giants, lots of it, that has been suppressed.

Robert Wadlow, then known as "world's tallest man" took time in October 1938 to get autographs from Maureen O'Sullivan, left, and Ann Morris. After getting the autographs, the 20-year-old Wadlow posed for their publicity photo, at right.

The dominant narrative of history is designed to support evolution - not the Bible.

The secularists have tried for years to undermine the veracity of Scripture. This is vital to their dream of a one-world technocratic order that spurns all Biblical standards, and adopts a perverse anti-God global agenda instead. Hard facts that support the Bible must be undermined for their twisted vision to succeed.

However, this is getting harder and harder for them to do, with archaeology unearthing sites and artifacts from thousands of years ago that exactly conform to the Biblical record. The proof for the Biblical account being the real story of history literally grows with each passing moment. The fools who just accept the narrative of the world's "experts" can only do so by avoiding the growing mountain of discoveries that just keep proving the "experts" wrong, and the Bible right!

I've been observing this advance of facts and proof of the Bible's accuracy for decades, and I can confidently tell you: when the Bible says giants once roamed the earth, that's because that is true history. Not only that, the Bible tells you where they came from, where they lived, and who they were. It also indicates how they finally came to their end. A lot of that will be included in our online meeting tonight, at Tsiyon.Net at 8 PM, CST, at our live online meeting. We are not talking about mythology here. We are talking about a subject that vitally effects your life.

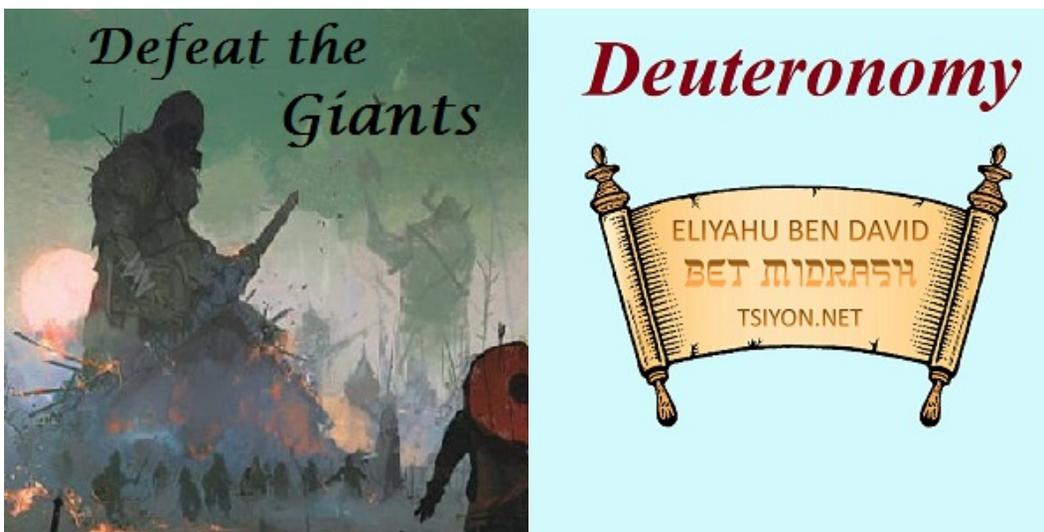

Blessings and good health to you,

Eliyahu
