Consider this:

Events of monumental global importance are about to take place this week, so please read all of this carefully. In an article entitled "*Biden Handing Over U.S. Sovereignty to WHO*" (Dr. Peter Breggin and Ginger Ross Breggin, *America Out Loud*, May 4, 2022) a massive UN power-grab of national sovereignty is reported. Documentation for the quotes below can be found at the quoted website. Confirm these for yourself - these all check out. Now, please focus on the following quotes and carefully consider their implications.

"On May 22-28, 2022, ultimate control over America's healthcare system, and hence its national sovereignty, will be delivered for a vote to the World Health Organization's governing legislative body, the World Health Assembly (WHA)."

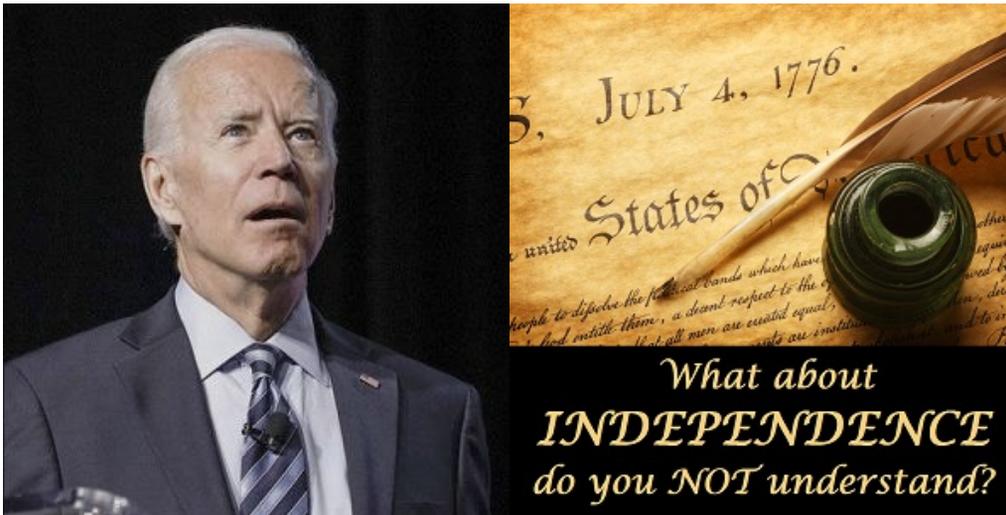

"This threat is contained in new amendments to WHO's International Health Regulations, proposed by the Biden administration, that are scheduled as "Provisional agenda item 16.2" at the upcoming conference on May 22-28, 2022."

"These amendments will empower WHO's Director-General to declare health emergencies or crises in any nation and to do so unilaterally and against the opposition of the target nation. The Director-General will be able to declare these health crises based merely on his personal opinion or consideration that there is a potential or possible threat to other nations."

"If passed, the Biden Administration's proposed amendments will, by their very existence and their intention, drastically compromise the independence and the sovereignty of the United States. The same threat looms over all the U.N.'s 193 member nations, all of whom belong to WHO and represent 99.44% of the world population."

"These regulations are a "binding instrument of international law entered into force on 15 June 2007." U.N. members states can be required by law to obey or acquiesce to them."

When passed, the "treaty" will take effect on the nations of the world in 2024. A blind man ought to be able to see where this UN WHO "treaty" is going. Through this "treaty" at any time the globalists can whip up and declare a new "pandemic" (real or imagined) by which they will be able to override the sovereignty of any and all nations, under cover of their declared "health crisis." The treaty, by international law, outranks internal national law - which means the Bill of Rights and the Constitution will be set aside with the UN WHO authority taking control. Harsh China-style lock-downs could be mandated to cow the populations into submission. "Vaccinations" of all citizens could be forced, as could submission to so-called "vaccine passports" - and anything else they can shoehorn into the general category of "health." For example, gun confiscation could be mandated, under the claim that guns in the hands of private citizens constitutes a "health crisis." All of this totalitarian power will be held under the direct control of unelected persons working through an unelected organization. In America, this means the end of "God-given Rights" and "Divine Law" on which those rights are based.

The *Declaration of Independence* declares the founding principle on which The United States of America is based, as follows:

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.--That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed.."

Clearly, handing over national sovereignty to a global body that does not hold to the principle of God-given rights, without even a vote from the citizens of the USA, has the effect of cancelling the founding principle of America, which is to say, canceling America itself. If, this week, these measures are accepted and the UN is given this sovereignty over America, it will essentially mean that America, in its fundamental sense, is over.

I've been sounding the warning about the end of America and the rise of the global government since 2008, with our *Revelation Series* and my book, *Announcing Judgment Day*. In 2015 I gave a further detailed warning in my *Beasts of Daniel Surfacing Seminar*, revealing how all of this is under way in fulfillment of very specific Bible prophecy, bringing in the prophesied global government. On numerous occasions I have made very specific statements and predictions of the end of America ushering in the global government. I am not causing this, so don't blame me for it; I am merely a messenger of the truth. Everything I've said in advance about this has already happened in detail, or is about to happen. You are living in unprecedented times, and if you survive to do so, you will see the end of this world. I am here to help you get through this, if only you will give what we are offering at Tsiyon the attention it deserves. Time is of the essence, right now.

At our live online meeting tonight we will be considering the very principles that define God-given rights and responsibilities, as enshrined in the Ten Commandments enumerated in Deuteronomy 5. Given that America and the

world has wandered so far from these fundamental laws of God-given freedom, no study could be more timely. As we consider these principles together, I know you will see, as I do, that the confrontation of the ages is upon us. Yes, the devil's seed will seem to be winning for a while, but there is only one way this can end - YHWH and His Messiah - and His faithful ones, will win!

Join us for our online meeting tonight, at Tsiyon.Net at 8 PM, CST. There will be great clarity of understanding as we focus on the fundamentals!

Blessings and good health to you,

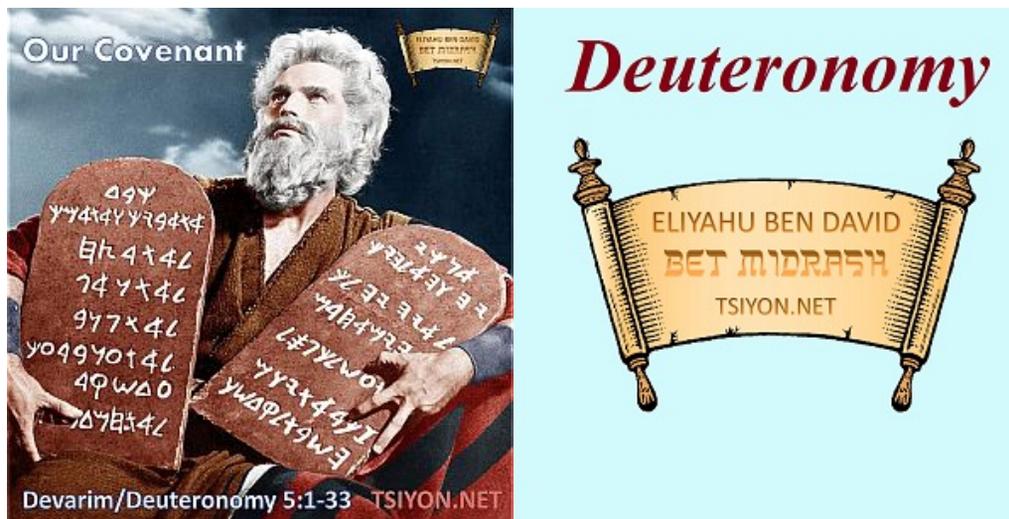

Eliyahu
